PROFESSIONAL SUMMARY

Detail-oriented Data Analyst and Computer Science (Data Science) graduate with hands-on experience in SQL, Python, Power BI, Tableau, and Excel across two industry internships. Skilled in gathering business requirements, stakeholder management, and translating data into ROI-driven insights. Proven ability to build ETL pipelines, perform EDA on large datasets, and deliver KPI dashboards that support strategic decision-making. Seeking a Junior Data Analyst role to deliver measurable business impact.

TECHNICAL SKILLS

Languages & Databases: Python, SQL (MySQL) — Joins, Subqueries, Window Functions
BI & Visualization: Power BI (DAX, Power Query), Tableau
Python Libraries: Pandas, NumPy, Matplotlib, Seaborn, Plotly
Data & Analytics: Data Cleaning, ETL Pipelines, EDA, KPI Reporting, Dashboard Development
Core Competencies: Stakeholder Management, Business Requirements, ROI Analysis, Stakeholder Reporting
Tools: MySQL Workbench, Jupyter Notebook, GitHub, Excel (Pivot Tables, VLOOKUP, INDEX-MATCH)

INTERNSHIP EXPERIENCE

Data Analyst Intern — SmartBridge Educational Services

October 2025 – March 2026 | Andhra Pradesh, India | APSCE Certified

- Partnered with HR and cross-functional leadership teams to define business requirements, validated data quality across employee datasets by resolving inconsistencies and enforcing standards, then built Tableau HR Analytics dashboards tracking attrition rates and workforce KPIs to drive strategic retention decisions.
- Diagnosed root causes of workforce attrition through structured EDA and problem decomposition; delivered ROI-focused recommendations and automated Excel reporting workflows — reducing manual reporting effort by ~40%.

Data Analyst Intern — GrowAI

May 2025 – October 2025 | Remote | Master Data Analysis Program

- Applied data governance principles to ETL workflows on 11,000+ records — enforcing data quality checks and validation rules before loading; collaborated with cross-functional teams to deliver Power BI dashboards with DAX measures tracking sales performance and revenue trends.
- Framed ambiguous business problems into structured analytical questions; translated requirements into SQL-driven customer segmentation analysis, surfacing strategic insights that directly informed quarterly ROI decisions.

PROJECTS

Business Sales Insights Dashboard | MySQL + Power BI

- Identified the core business problem — leadership lacked visibility into revenue drivers — and solved it by writing 50+ optimized SQL queries on 1,800+ records and building a Power BI KPI dashboard, uncovering that 22% of revenue was concentrated in 2 product categories to enable targeted pricing and inventory strategy.
- Delivered self-serve interactive slicers and drill-through reports with data quality filters, reducing ad-hoc stakeholder requests and enabling leadership to act on high-ROI decisions independently.

Zomato Restaurant Performance Dashboard | Power BI

- Built an end-to-end Power BI dashboard analyzing 9,551 restaurants across 15 countries and 4M+ user votes; identified high-growth cuisine segments — North Indian (3,960 units) and Chinese (2,735 units) — enabling data-driven market expansion and investment prioritization decisions.
- Performed time-series and correlation analysis revealing that 63.88% of non-delivery restaurants had lower popularity, providing actionable ROI recommendations for service expansion and performance optimization.

Customer Churn Analysis | Python

- Decomposed the telecom churn problem into testable hypotheses across contract type, tenure, and charges; analyzed 7,000+ records using Pandas and NumPy — identifying a 27% churn rate among month-to-month customers and translating findings into retention strategies with Matplotlib, Seaborn, and Plotly visualizations.

EDUCATION

B.Tech — Computer Science & Engineering (Data Science)

2022 – 2026

75.29%

GATES Institute of Technology, Andhra Pradesh (JNTUA Affiliated)

Intermediate (MPC) — Srisai Jr. College, Andhra Pradesh

2022

71%

SSC (10th Grade) — Mourya High School, Tadipatri

2020

95%

CERTIFICATIONS

- Oracle Analytics Cloud Certified Professional — Oracle (2025)
- Data Analytics Certification — GrowAI Master Data Analysis Program (2025)
